PRODUCT DESCRIPTION

L-PWP40A is a versatile, 40W cabinet loudspeaker intended for use in general indoor applications. The loudspeaker is ideal for use in theme bars, music restaurants, groceries, video shops, meeting rooms, office buildings, exhibition halls, gyms, and presentation rooms. Equipped with high linearity anti-fatigue rubber, the bass audio performance is free from distortion due to prolonged low-frequency operation. Treble circuit unit adopts dome Cortina design,

extending the treble range of frequency response and increasing the high quality acoustic performance. The traditional screw type terminal makes it easier for connection. A 5-step volume can be controlled by knob console on the back box. The adjustable installation brackets flexibly position the loudspeakers that meet the needs of different indoors sound field characteristics. The loudspeaker is CE and RoHS complied.
